German-Polish AHK and Polish-Asian Chamber of Commerce

Consulting Management Solutions

Founded by Ulf Schneider in 2003, SCHNEIDER GROUP is an international consulting company providing services and expertise to support companies as they enter markets and grow their business in Eastern Europe, Central Asia and the Caucasus. With offices in 15 countries, the company has excellent opportunities to work with clients operating in different sectors and industries, and can leverage its extensive experience to provide a full range of business services across the region.

Established in 2012, SCHNEIDER GROUP's Warsaw office has become a reliable one-stop partner for international companies seeking growth in the Polish market. SCHNEIDER GROUP Warsaw boasts a comprehensive package of services encompassing everything needed for a seamless launch, from incorporation to ongoing operational support. Our experienced local experts in legal, tax, accounting and HR adhere to the highest internal quality standards, building long-term relationships with clients and providing tailor-made solutions. The team's legal expertise, further strengthened by an in-house attorney, ensures comprehensive support and expert legal representation.

As part of the broader SCHNEIDER GROUP network, the Warsaw office is increasingly involved in cross border projects with other offices across the region, and is therefore well placed to support clients who want to expand their interests beyond Poland, particularly into the Caucasus and Central Asia.

Poland's thriving economy (4.9% GDP growth in 2023, 3.8% projected in 2024) and strategic EU location make it an investor haven. Lucrative incentives like tax breaks, grants, and specialized zones attract investors alongside a highly skilled and competitive workforce. This positions Poland as a prime nearshoring destination, offering diverse opportunities across sectors like manufacturing, automotive, and ICT. With a government actively supporting foreign investment, Poland becomes a promising hub for business success and cost-effective European expansion.
