Consulting Management Solutions

Founded by Ulf Schneider in 2003, SCHNEIDER GROUP is an international consulting company providing services and expertise to support companies as they enter markets and grow their business in Eastern Europe, Central Asia and the Caucasus. With offices in 15 countries, the company has excellent opportunities to work with clients operating in different sectors and industries, and can leverage its extensive experience to provide a full range of business services across the region.

Established in 2022, SCHNEIDER GROUP Baku Office continues to support its clients in all stages of development as a one-stop business partner for international business in Azerbaijan.

Azerbaijan, with its developed Oil & Gas and related businesses, is at the center of business life in the South Caucasus. According to publicly available information, Azerbaijan's total currency reserves totalled USD 68 billion at the end of 2023. The state not only invites international businesses to invest in the country, but also encourages them to participate in state-funded projects to provide services and goods. Azerbaijan is located at the crossroads of Europe and Asia, at the center of the Middle Corridor from China to the EU with a vast market, making it an attractive hub for trade and logistic companies. Azerbaijan continues to develop its market infrastructure, including the legal, tax and banking systems, which in many cases actively apply international experience, such as the "one-stop-shop" principle. To improve the investment climate, the country has established 1 Free Economic Zone and 9 industrial parks and sites.
